

Our Society warmly welcomes Dr. Doris C. Maduka for a short-term Research Fellowship.

Doris graduated from Igbinedion University Okada where she studied Medicine. She proceeded to the University of South Wales, UK to obtain Masters in Public Health. Her research interest is in lifestyle factors underpinning Non-Communicable

Diseases. During the period of her fellowship, Doris will be working in conjunction with our Non-Communicable Disease research partners at the Circulatory Health Research Laboratory of the College of Health Sciences, University of Abuja to carry out a systematic review on physical activities in Nigeria and Africa.
